

Driven by the infinite possibilities of technological innovation and constantly seeking improvements. Looking for a front-end software development role to apply my skills of problem solving, visual creativity, and communication.

TECHNICAL EXPERIENCE:

Side Projects

Tixare.com

- Engineered an online marketplace providing customers with event ticket prices
- Utilized Tailwind CSS and JavaScript for user interface and experience to display every ticket price and event
- Manipulated Cloudflare APIs using Node.js for real-time ticket prices and event information

Capstone Projects

Philadelphia Brewery Finder

- Crafted a Vue.js web app to find breweries using JavaScript
- Integrated public brewery and Google Maps APIs for real-time data and map visualizations
- Managed data using SQL, with advanced search filters for user-friendly navigation

Vending Machine Application

- Developed a command line vending machine application with a colleague implementing principles of File I/O and OOP
- Includes input file processing, logging functionality, and inventory tracking

TECHNICAL SKILLS:

Spring Boot, Java, PostgreSQL, HTML, CSS, JavaScript, Python, Tableau, Node.js, RESTful API development, Vue.js, Responsive Design, IntelliJ, Git, Unit Testing (JUnit), E/R diagrams, Integration Testing

EDUCATION:

Tech Elevator Philadelphia, PA

August 2023

14-week full-stack coding bootcamp learning how to create dynamic web-based software systems using Java providing 800+ hours of development education and application

Adelphi University Garden City, NY

Master of Public Health in Epidemiology

August 2019

Bachelor of Science in Natural Sciences

May 2017

EXPERIENCE:

Insall Scott Kelly Institute of Orthopedics & St. Francis Hospital Heart Valve Center Roslyn, NY
